Wireframe 1 · Sign in

/sign-in · desktop, 1440 × 900 · low fidelity

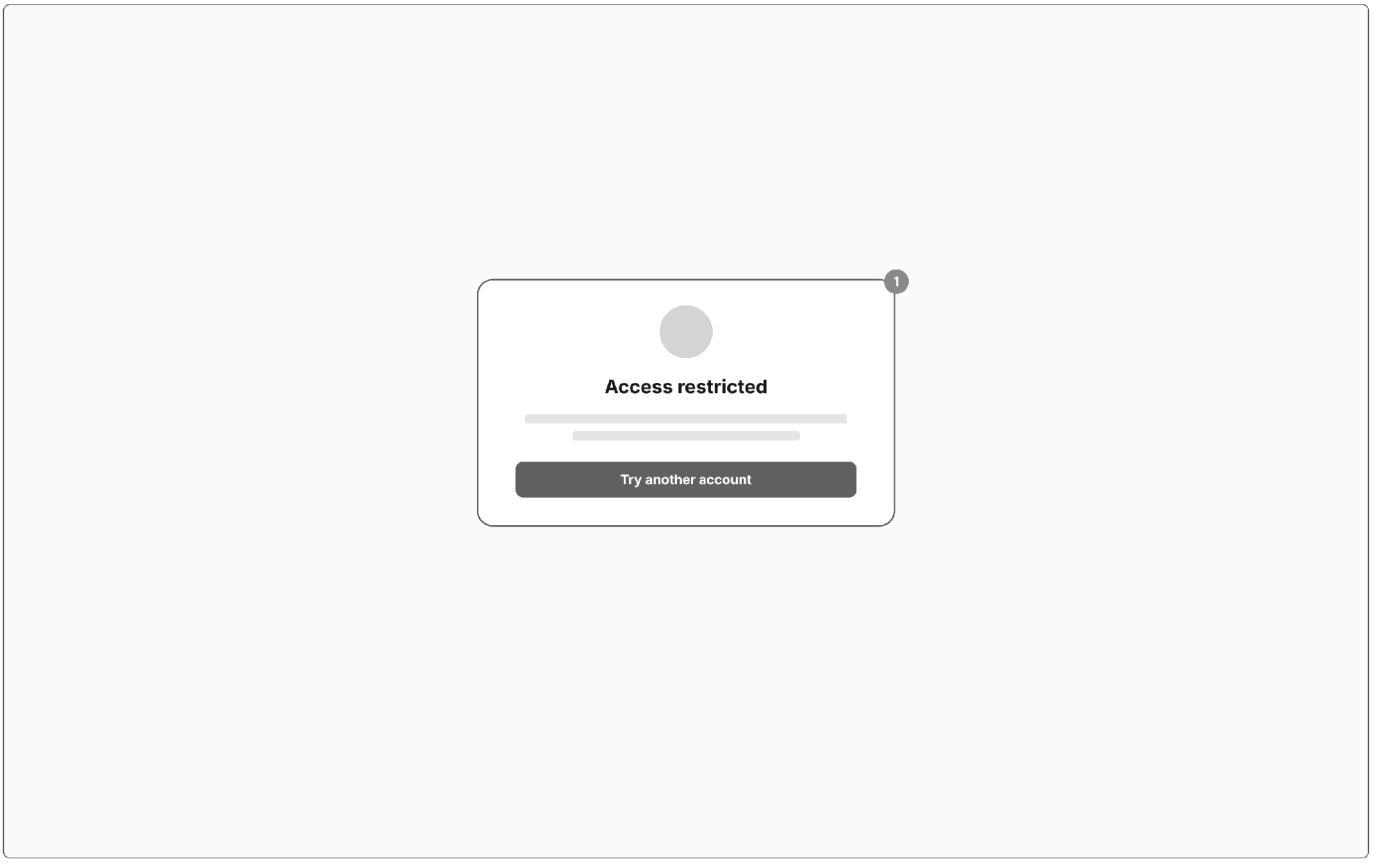

Notes

1. Soft color glow behind the sign-in card. Sign-up is hidden: accounts come from the university.

Wireframe 2 · Access restricted

/access-restricted · desktop, 1440 × 900 · low fidelity

Notes

1. Shown when the Google account is not a university address. The button signs out and returns to sign-in.

Wireframe 3 · My complaints

/complaints · desktop, 1440 × 900 · low fidelity

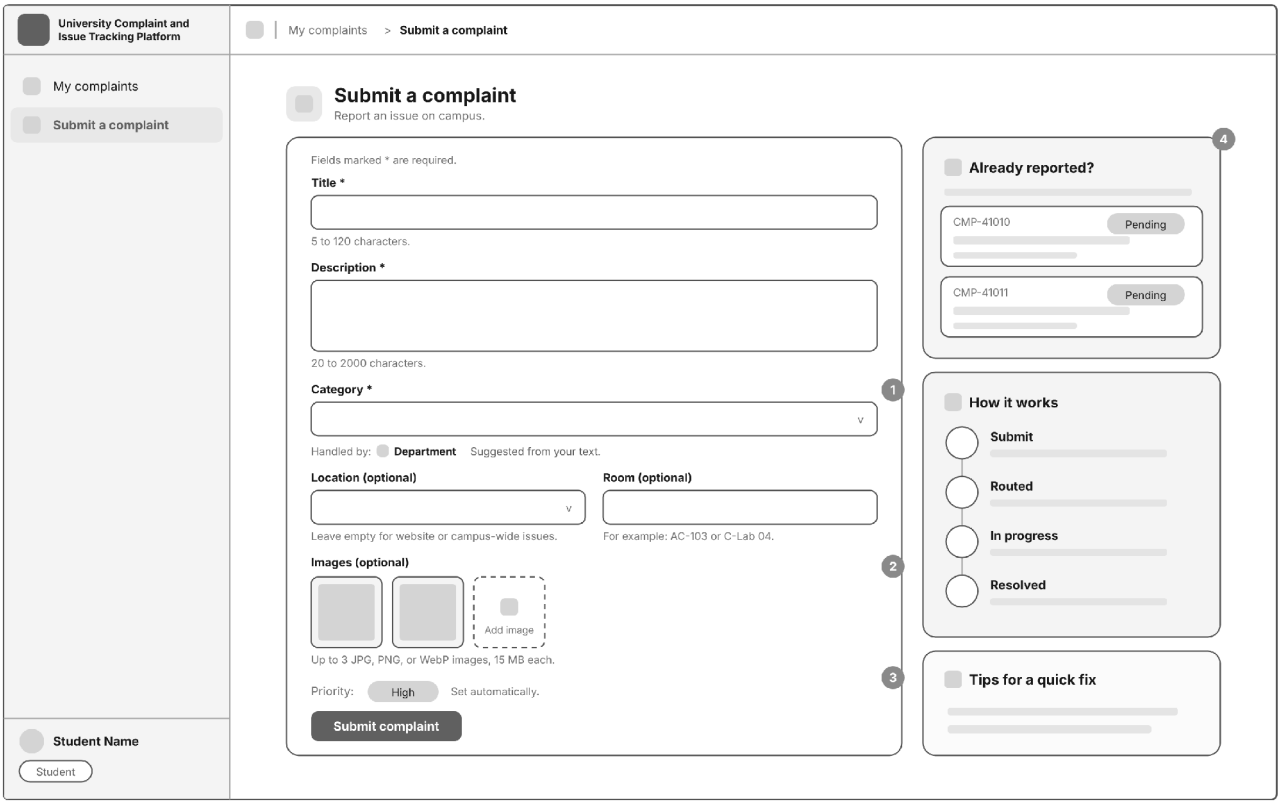

Notes

1. Total and page shown above the list; rows per page on manager tables.
2. Each complaint: ticket, title, category, date, color bar and badges for status and priority.
3. Same search and filters as the dashboard, plus a card, table, or compact view switch.

Wireframe 4 · Submit a complaint

/complaints/new · desktop, 1440 × 900 · low fidelity

Notes

1. Category, location, room and priority are suggested live from the title and description. Location is optional.
2. Up to three images, compressed in the browser, with thumbnails that can be removed before submitting.
3. Priority is set automatically; the department can change it later.
4. Similar open complaints from the same place and category appear while typing, above the guide.

Wireframe 5 · Complaint detail

/complaints/CMP-xxxxx · desktop, 1440 × 900 · low fidelity

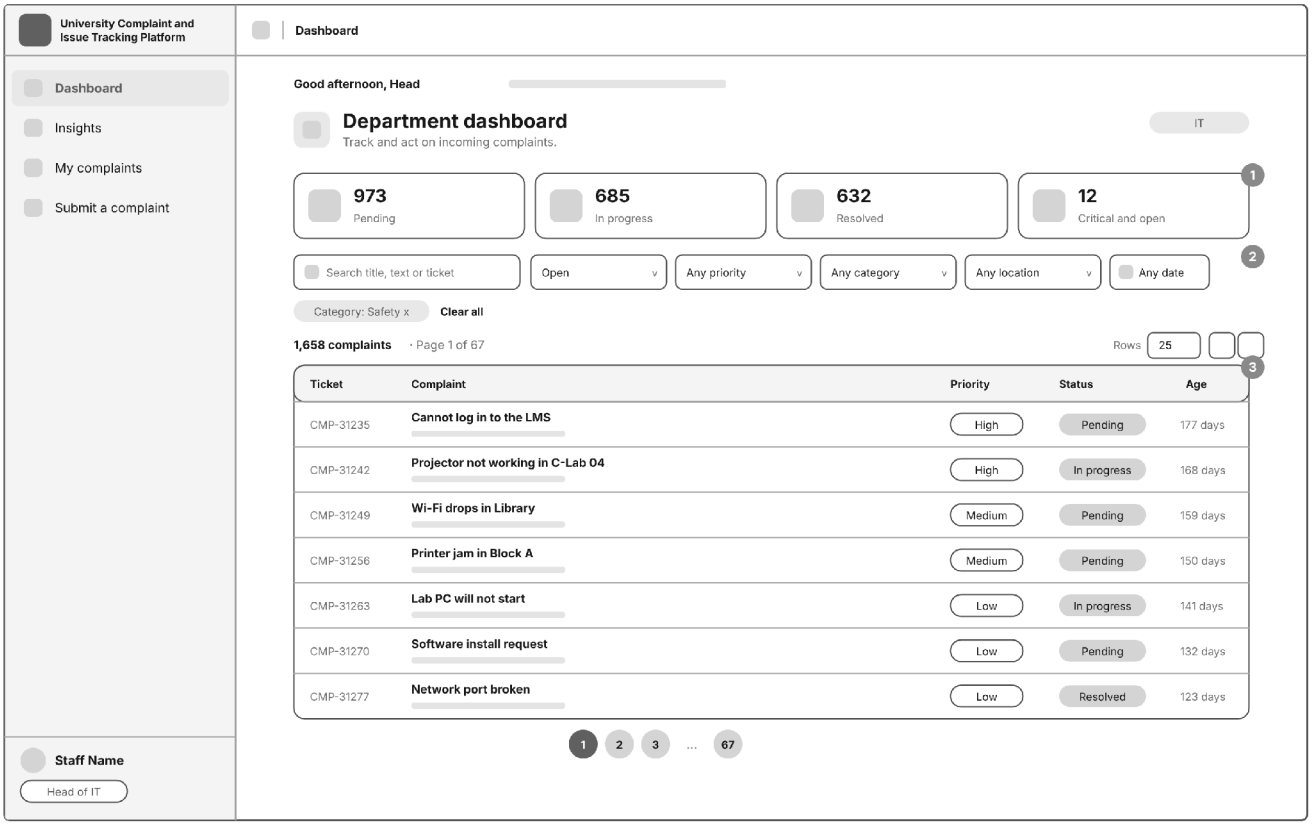

Notes

1. Summary card: colored top strip and badge follow the status; key details shown as icon rows.
2. History timeline: submitted, routed, forwarded and status changes (internal notes stay hidden).
3. Attached images open in an in-page viewer with previous and next.

Wireframe 6 · Department dashboard

/manage · desktop, 1440 × 900 · low fidelity

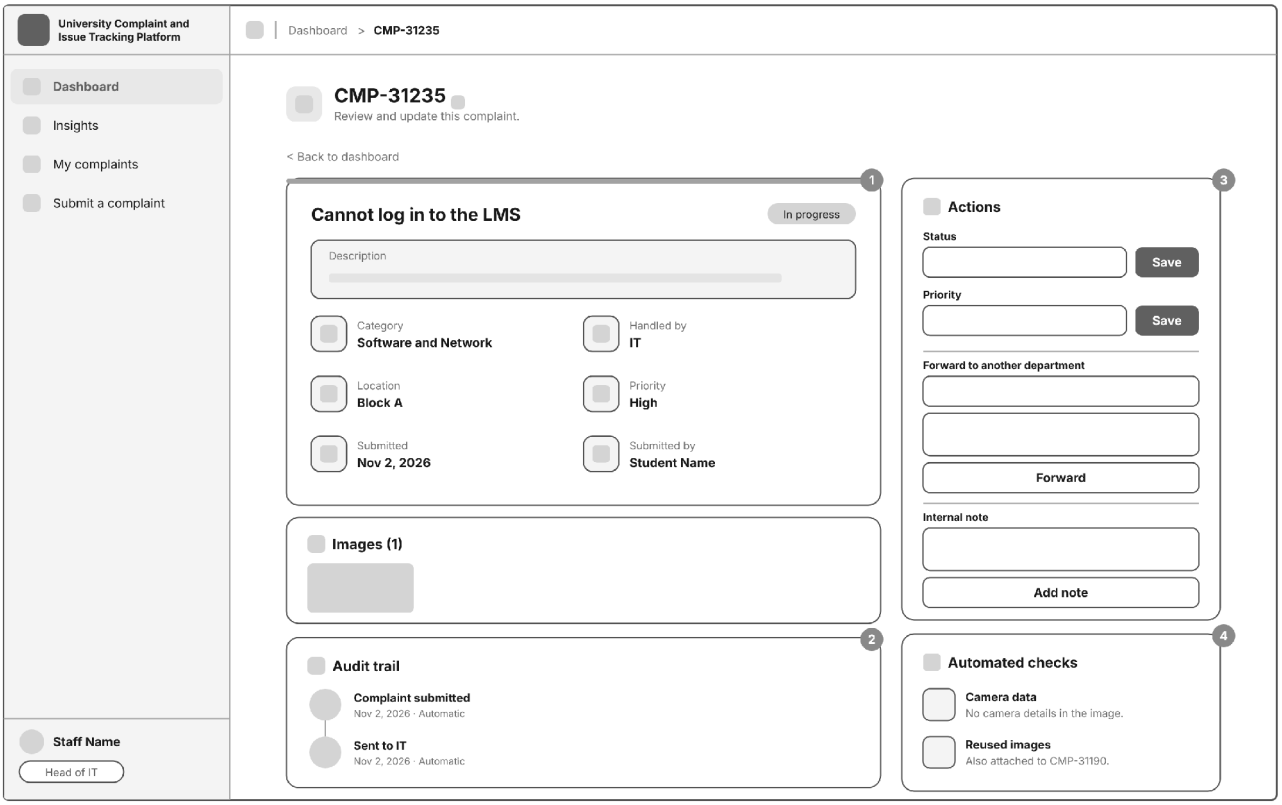

Notes

1. Stat cards are toggle filters, and their numbers follow the other active filters.
2. Search and filters live in the address, with removable chips and Clear all.
3. Sortable columns, sticky header, rows per page (remembered) and numbered pages.

Wireframe 7 · Manager complaint page

/manage/complaints/CMP-xxxxx · desktop, 1440 × 900 · low fidelity

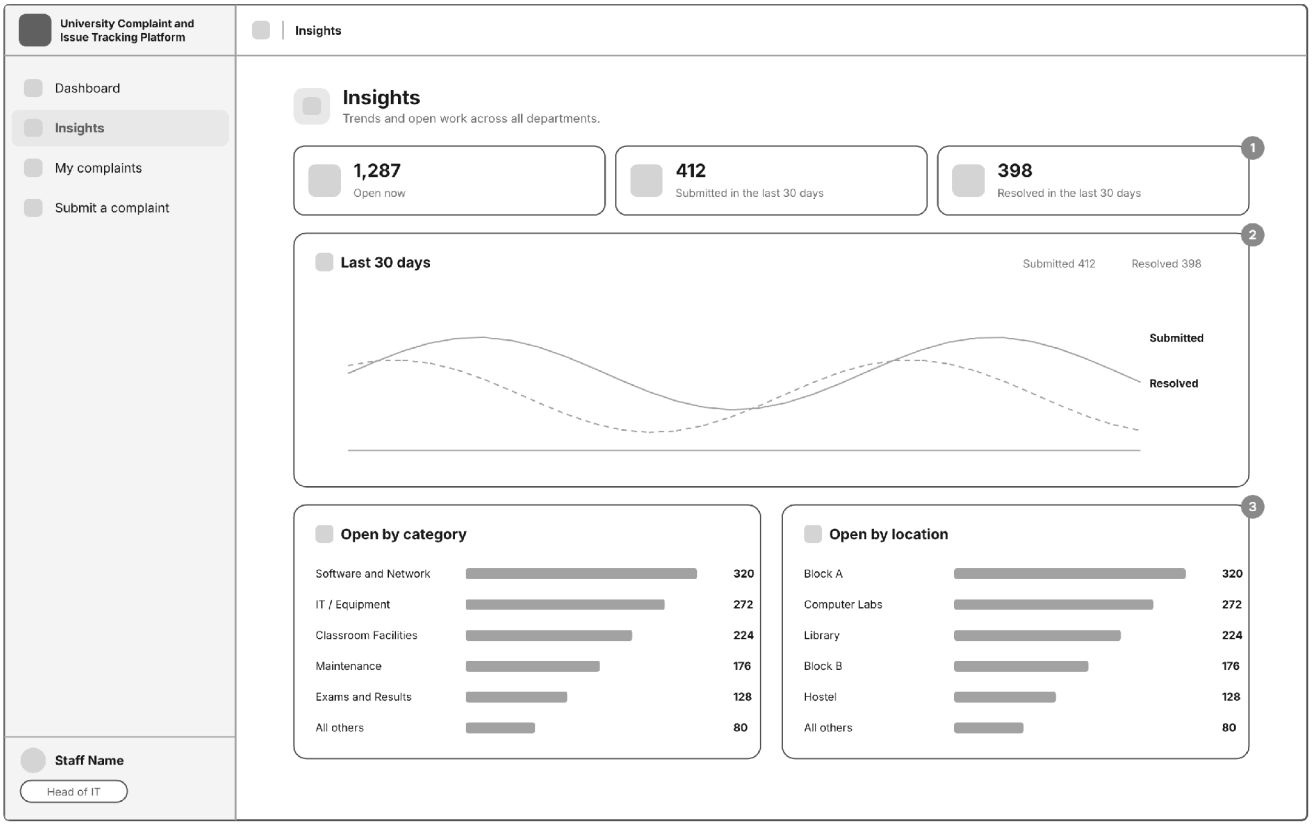

Notes

1. Summary with the submitter shown to managers; the color strip follows the status.
2. Full audit trail: who changed what and when, including automatic steps.
3. Actions: status, priority, forward with a reason and internal notes (archive once resolved). Conflicting edits are rejected.
4. Automated checks: camera data and links to other complaints that use the same image.

Wireframe 8 · Insights

/manage/insights · desktop, 1440 × 900 · low fidelity

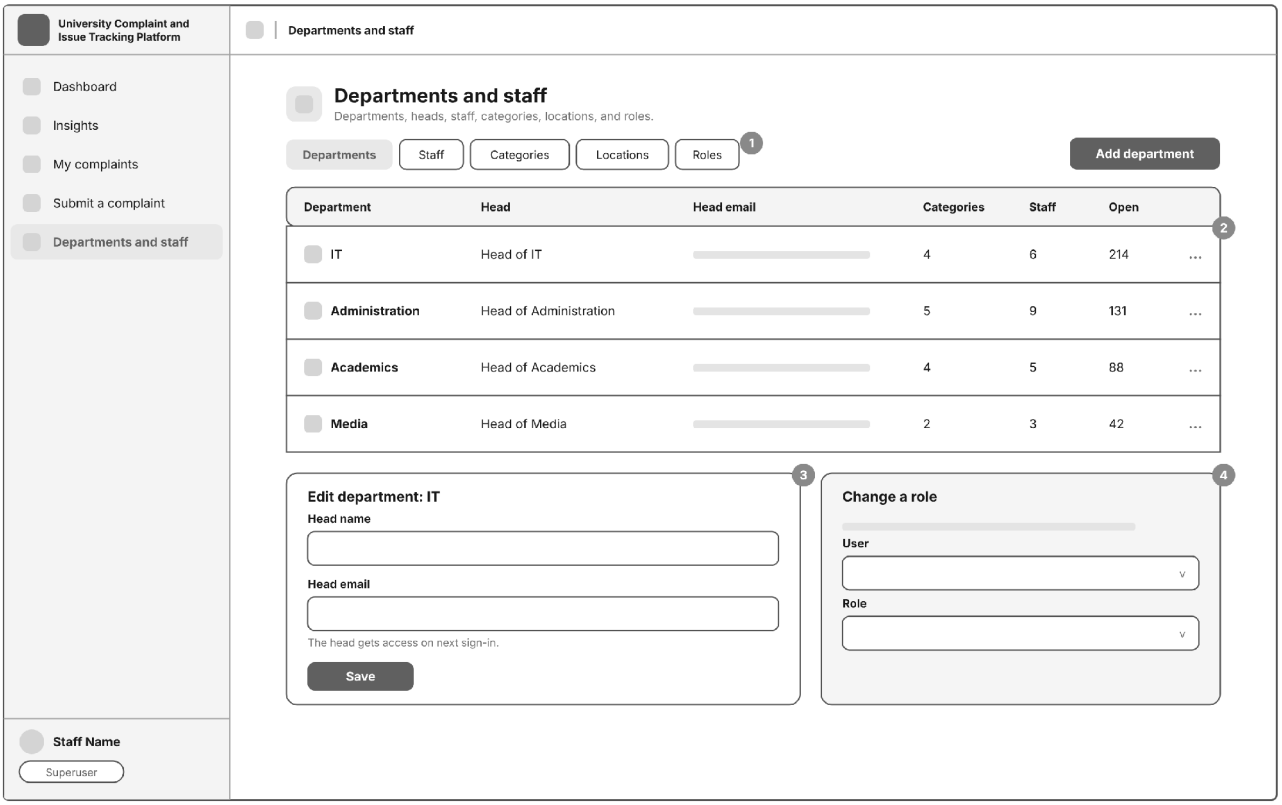

Notes

1. Headline numbers for the department (all departments for the superuser).
2. Submitted and resolved per day over the last 30 days, with a table view for exact numbers.
3. Open complaints by category and by location, with values written next to each bar.

Wireframe 9 · Departments and staff (planned)

/manage/departments · desktop, 1440 × 900 · low fidelity

Notes

1. Superuser only. One page with tabs for departments, staff, categories, locations, and roles.
2. Each department shows its head, category and staff counts, and open complaints.
3. Changing the head email moves head access to the new person; recorded in the audit trail.
4. Roles: new accounts get Student or Faculty from the email pattern; the superuser can change any role.

Wireframe 10 · Campus board (planned)

/board · desktop, 1440 × 900 · low fidelity

Notes

1. Every signed-in user can read open campus issues. Submitter names are never shown; Safety complaints are hidden.
2. Each card: title, category, location, room, status, and age. Opens a read-only view.
3. "Affected too" adds one vote per user. Enough votes raise the priority automatically, recorded in the audit trail.
